SUMMARY

B.Tech Computer Science Engineering (AI) student with hands-on experience in full-stack web development, AI/ML, databases, and IoT-based systems. Experienced in developing and deploying web applications, building ML-based prediction solutions, and integrating software with hardware. Strong in problem-solving, communication, teamwork, and translating requirements into practical technology solutions.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, C/C++, SQL
- **Web Development:** React.js, Node.js, Express.js, HTML, CSS
- **Databases:** PostgreSQL, DBMS
- **AI/ML:** Machine Learning, Random Forest, Computer Vision, MobileNetV2
- **IoT Hardware:** ESP32, Sensors, IoT, Embedded Systems
- **Tools Technologies:** Git, GitHub, Google Colab, VS Code
- **Core Concepts:** Data Structures Algorithms, OOP, Software Engineering, Data Analysis

EDUCATION

GSFC University **2024 – 2028**
B.Tech in Computer Science Engineering *CGPA: 8.39*

Shannen School **2022 – 2024**
Class XI–XII (CBSE) *78%*

Urmi School **Till 2022**
Class X (CBSE) *83%*

WORK EXPERIENCE

- Developed and deployed the complete website for **Sai Rehabilitation Center** website-link
  Independently Developed and deployed the organization's production website, implementing responsive UI, backend contact forms, SEO, domain/DNS configuration, Cloudflare security integrations, and Vercel deployment.
- Co-Web Head for AIchE Student Chapter - GSFCU
- **TIDES Ignition Program - IIT Roorkee (Startup Incubation)**
  Pitched "Trackademy", an AI-powered automated attendance monitoring system for colleges, to mentors and investors over a 40-day program; received guidance on product-market fit and **IP protection strategy**.

PROJECTS

1. DARPAN (Data Analysis and Risk Prediction for Accelerated Nation-building)
Smart India Hackathon, 2026

- An AI-based decision-support system for identifying government projects at risk of time delays and cost overruns.
- Developed ML-based prediction models to identify government projects at risk of time and cost overruns, using project-related features for risk assessment and decision support
- **Technologies used:** Python, Pandas, NumPy, Scikit-learn, Random Forest, Machine Learning

2. Vayu Nirantar
LDCE Hackathon, 2026 – Winner

- Worked on an AI/IoT-based environmental monitoring project, integrating hardware, sensor data and software for pollution analysis.

- Gained hands-on experience in sensor integration, data processing, automation, teamwork and problem-solving.
- **Technologies used:** Python, IoT, Sensors, Machine Learning, ESP32

3. CareerOS
Minor Project, 2026
- Worked on a career-oriented platform designed to help students with career exploration, skill development and personalized guidance.
- Gained experience in full-stack development, database integration and building user-focused features.
- **Technologies used:** React.js, JavaScript, Node.js, Express.js, PostgreSQL, Git/GitHub

4. AI-Based Waste Segregation System
AI/IoT Project, 2026
- Developed a waste classification solution using **MobileNetV2** to categorize waste into recyclable, hazardous and non-recyclable categories.
- Integrated AI-based classification with hardware components including **ESP32, servo motor, ultrasonic sensor and stepper motor**.
- **Technologies used:** Python, MobileNetV2, ESP32, IoT, Computer Vision

ACHIEVEMENTS

- **Tarkshaastra Hackathon Winner** – Won the hackathon at LDCE with a **72,000 cash prize**.
- Selected/participated in **Smart India Hackathon 2026**, contributing to an AI-driven project monitoring and prediction solution.
- Developed undersatnding in**AI/ML, Full-Stack Development, DBMS and Web Technologies** through multiple practical projects.

CERTIFICATES

- **Introduction to Generative AI** – Google Skills
- **AWS Academy Graduate - Cloud Foundations** – Amazon Web Services
- **Python Essentials 2** – Cisco
- **Python Essentials 1** – Cisco
- **Networking Basics** – Cisco
- **AI Fundamentals with IBM SkillsBuild** – Cisco
- **Certificate of Participation** – Indian Space Research Organisation (ISRO) Hack2Skill
- **TIDES Ignition Program** – TIDES, IIT Roorkee

EXTRA-CURRICULAR ACTIVITIES

- **AIChE - Student Chapter, GSFCU, Co-Web Head** – Managed and contributed to web development and digital activities.
- Participated in **hackathons, technical competitions and project presentations**.
- Actively contributed to **team-based technical projects and technical documentation**.
