Achievements

Certification :

- Participated In IntelliHack hackathon By IEEE SB DAIICT
- AWS Cloud Foundations
- Python Essentials 1 – Cisco Networking Academy
- Python Essentials 2 – Cisco Networking Academy
- Oracle OCI AI Foundation Associate
- Cisco Networking Basics

Career Objective

Enthusiastic Computer Science Engineering student seeking an internship opportunity in the IT sector as part of my university's semester-wise internship program. Eager to develop innovative solutions, strengthen technical expertise, and contribute to real-world software projects in a collaborative and learning-oriented environment.

Education

2024 - 2028

Bachelor of Technology

GSFC University

2022 - 2024

Higher Secondary Education

Fertilizer Nagar School (GSFC), Vadodara

2020 - 2022

Secondary Education

Gujarat Public School, Vadodara

TECHNICAL SKILLS

Programming Language :

Java, Python, C/C++

Web Technology :

HTML, CSS, Javascript, Node, Next js
React, Express js, MongoDB, SQL

Tools & Technology :

VS Code, Figma, Canva, Git, Github, Postman

PROJECTS

AI THREAT DETECTION SYSTEM

An intelligent cybersecurity system that detects and classifies potential network and behavioral threats using AI driven anomaly detection models. It integrates real-time monitoring,visualization, and automated alerts to enhance digital safety and proactive defense.

Technology Used :
Python, Pandas, NumPy, Scikit-learn, Streamlit, Git, GitHub

CNP Department | MERN Stack Web Application

Developed a full-stack university portal using MongoDB, Express.js, React.js, and Node.js to manage student clubs, projects, memberships, events, and team collaboration. Implemented role-based access control, join requests, project updates and mentor feedback, notifications, and an inventory management system with material requests and allocation tracking.

Technology Used :
React.js, TypeScript, HTML5, CSS3, Node.js, Express.js, MongoDB Atlas, Mongoose, Cloudinary, Git, GitHub

TrackNest - Advanced Logistics Parcel Tracking System

A comprehensive logistics parcel tracking system with role-based access control, secure QR workflow, real-time status updates, POD management, and Google Sheets integration.

Technology Used :
Next.js, TypeScript, Tailwind CSS , Sonner, Node.js, Prisma ORM with PostgreSQL, Git, GitHub
